# Simple but efficient circle of light

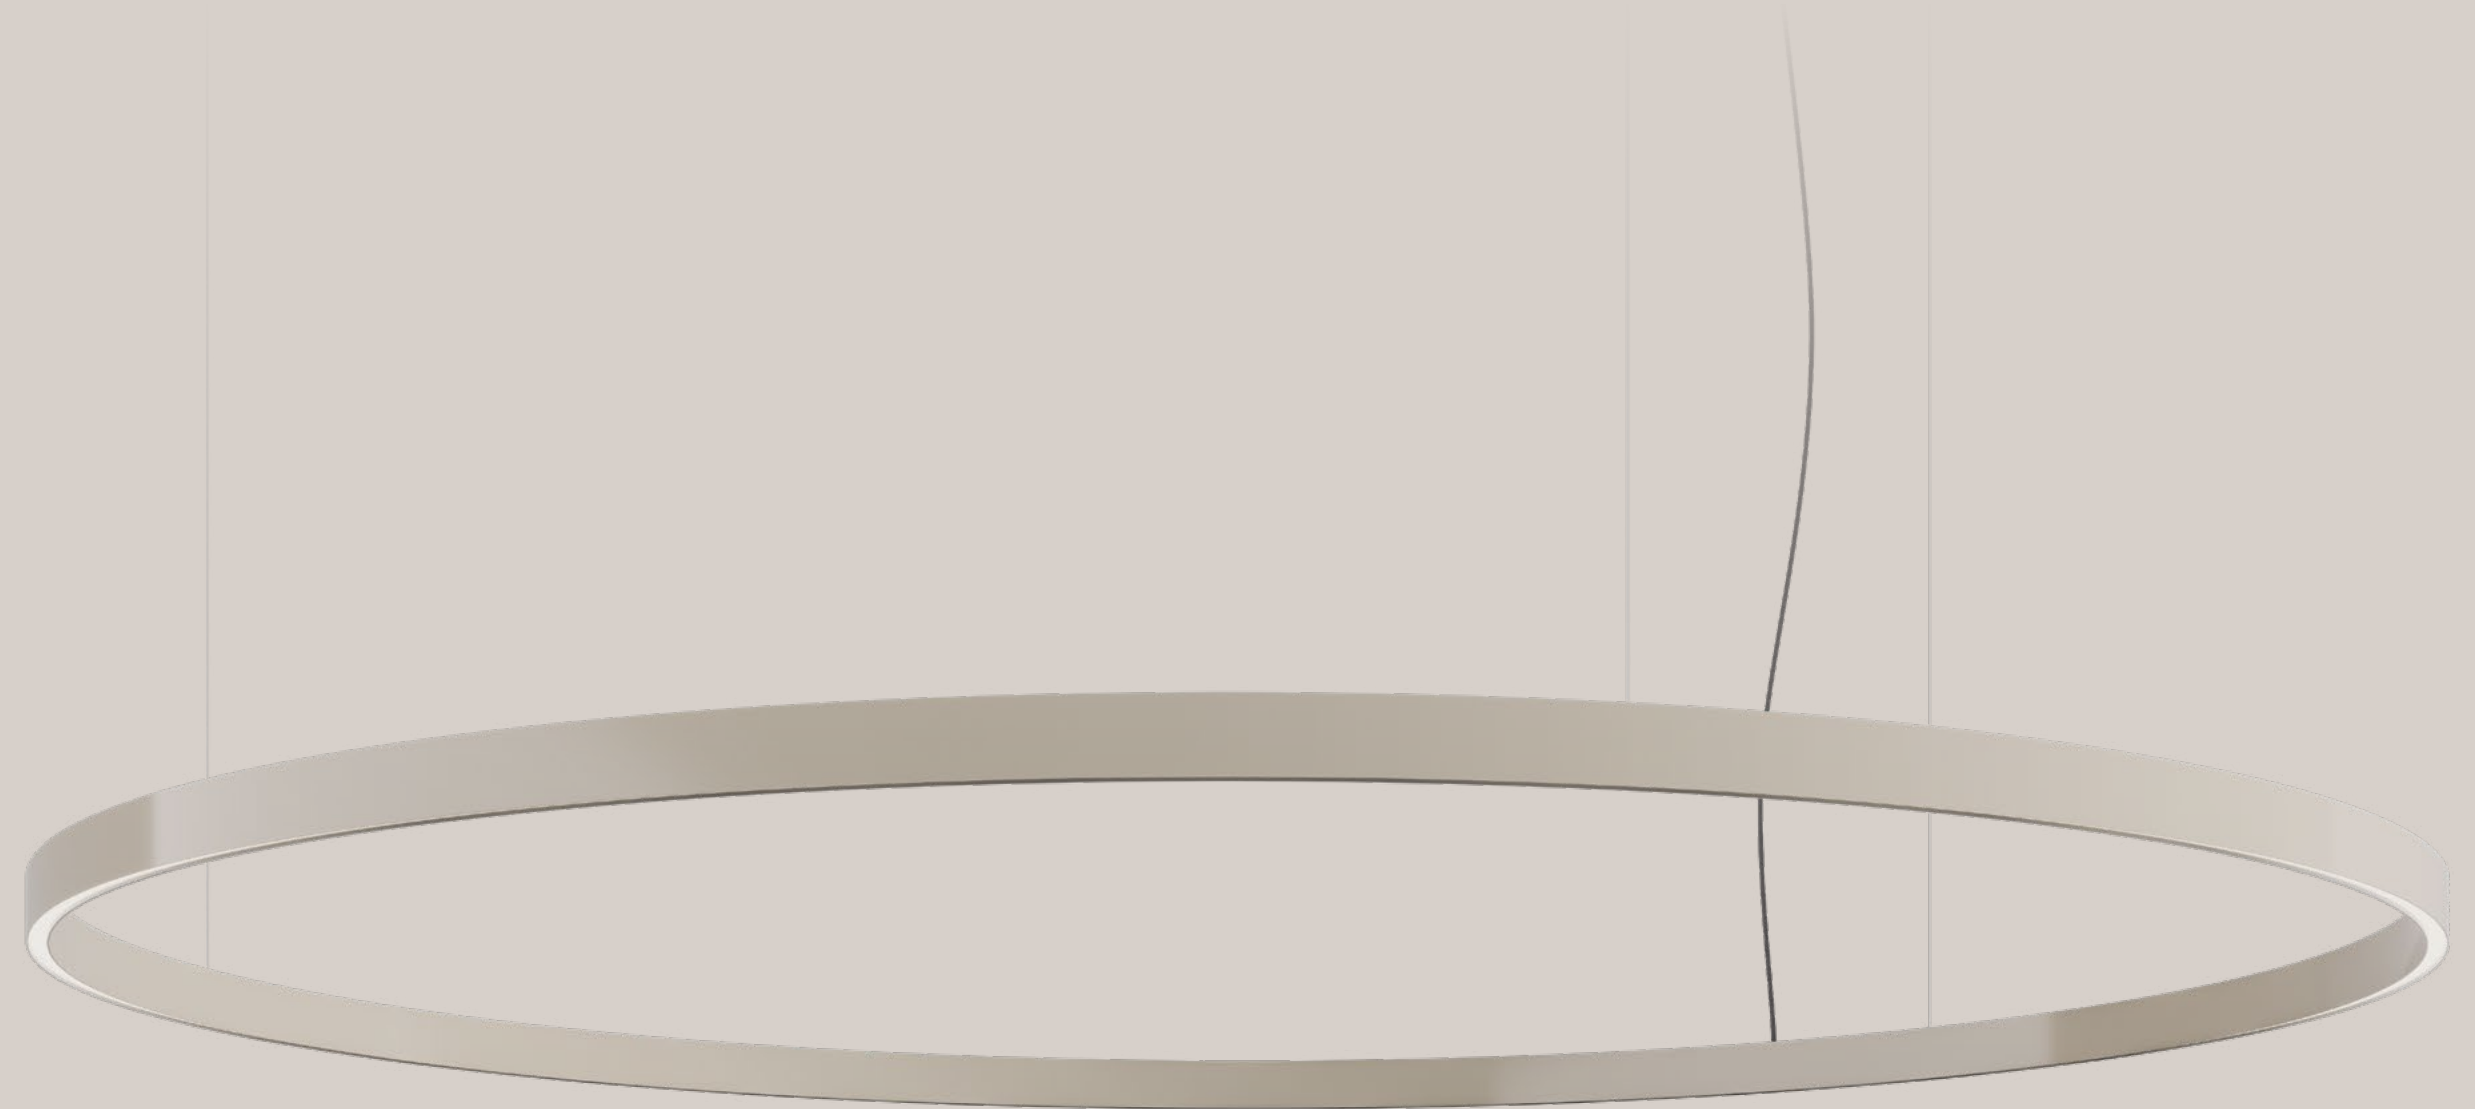

Rynk is a continuous circle of light, a round-shaped luminaire available in three different diameters and many trendy colours. It is simple but efficient for its looks and its illumination.

With its possibility of indirect illumination it creates cosiness, lights up ceilings and improves visual comfort.

Due to its thinner elegant profile it fits in all kind of interiors – from home to office, retail and hospitality.

# 14 mm thin profile

Rynk's profile is thin. No matter the diameter it is always minimalistic and elegant. Therefore, it is suitable for all kinds of interiors – from home to office, retail, and hospitality.

# Create a composition

There are three different sizes available.

If you combine them, you can create beautiful compositions.

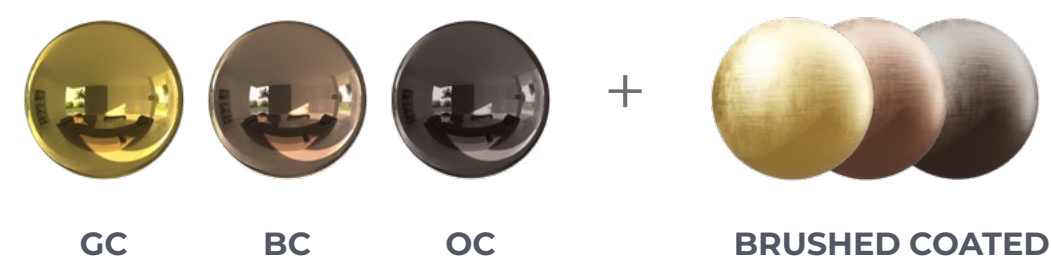

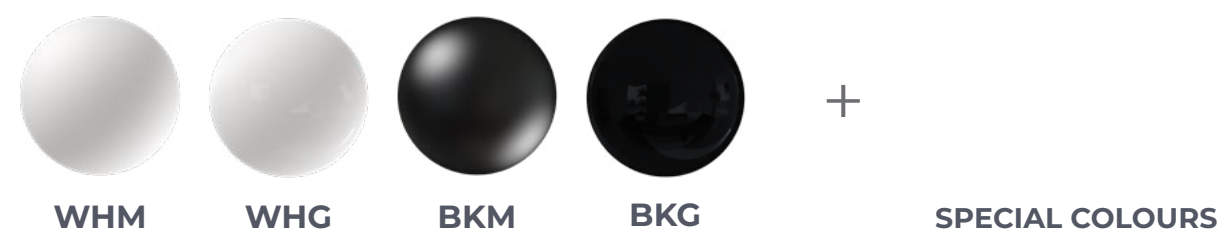

# Direct, indirect or both

With its possibility of indirect illumination it creates cosiness, lights up ceilings and improves visual comfort.

# Choose the colour you prefer

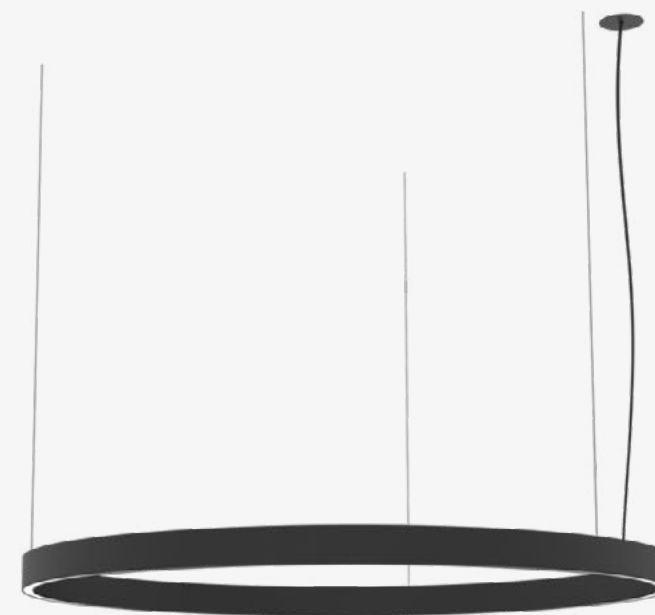

Rynk is beautiful in all available colours. Some prefer it black or white to blend it in discretely. If you want to have an eye-catching element in the space, then dare to choose the more intensive ones.

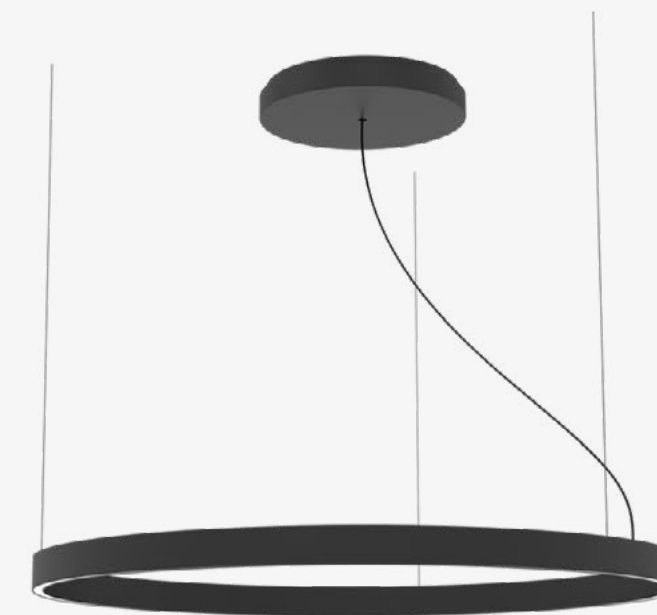

# Ceiling cups

Depending on the ceiling, two different ceiling cups are available (with integrated or remote driver). The ceiling cup with the integrated driver also comes in a version with notches, which allows the attachment of the suspensions directly in it.

# Rynk Open

For those who prefer open circles, Rynk Open will be available soon. Also combinations of both models are interesting.

It fits  
everywhere
