

FREILUFTISLAND

About us

As a family-run company based in Westphalia, we have been manufacturing exclusive outdoor kitchens for discerning outdoor enthusiasts since 2015.

Individuality and perfectionist craftsmanship are our hallmarks. Our team has the necessary experience and knowledge to guarantee unique quality and durability. 365 days a year - for a lifetime.

The high quality of the materials we select is second to none. The combination of functionality and aesthetics is also an expression of the uniqueness of our solutions.

Passion Craftsmanship Perfection

Manufactories are special craft businesses. They are characterized by high standards of quality and great expertise, a great deal of passion and craftsmanship.

All solutions that leave our manufactory in Westphalia are truly unique and are made entirely in Germany.

Every step of the process is in the hands of experienced specialists: From planning and design, to delivery and assembly. Each cabinet is screwed together by hand and carefully checked.

The result: perfect craftsmanship.

the real outdoor kitchen and the original kamado

Two originals and pioneers in their disciplines meet.

The finest aluminum meets the very best ceramics.
This is how you could describe the cooperation between
the Freiluftmanufaktur and Big Green Egg.

For exactly 50 years, the Big Green Egg has been creating
the most beautiful memories.

We are celebrating this anniversary with the Freiluftisland-
exclusive 50th anniversary Big Green Egg Edition.

The Big Green Egg Large is a high-quality ceramic barbecue known for its exceptional heat retention and versatility.

- Multiple stainless steel drawers with aluminum fronts create space for cutlery, spices, tableware and bottles.

- The elegant solid oak shelves are finished with 5 coats of boat varnish.

Elegance in the outdoors

The Freiluftinsel is a masterpiece of modern garden design. Fine materials and sophisticated features create a visual harmony. The elegance goes hand in hand with functional features to optimize your outdoor experiences- whether for entertaining guests or culinary highlights.

An eye-catcher and a long-lasting investment for luxurious outdoor living.

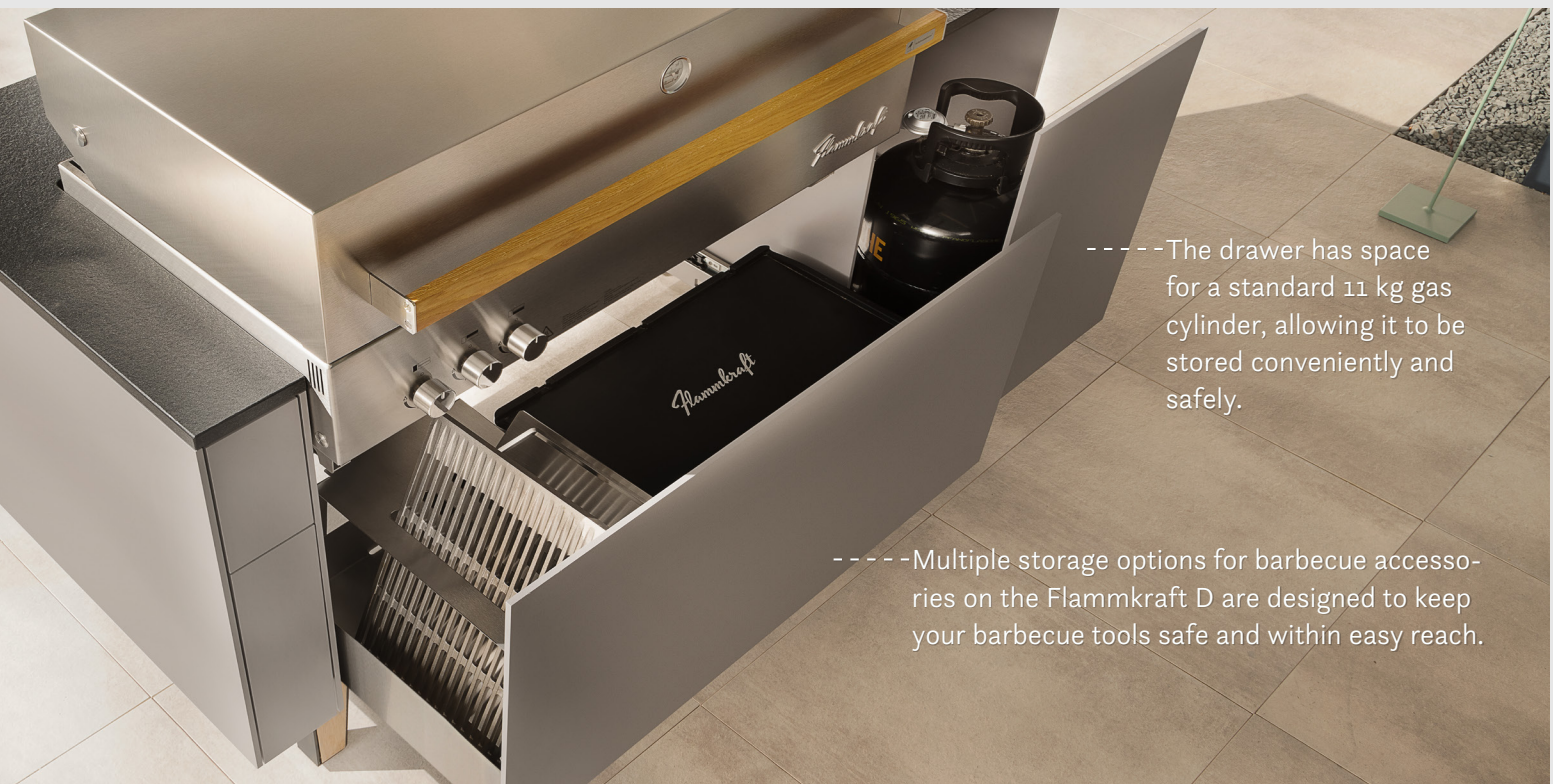

A passion for quality

Freiluftmanufaktur and Flammkraft stand for one thing above all: the highest quality materials and sophisticated craftsmanship.

The probably most powerful gas barbecue is seamlessly integrated into a body made from the best possible materials. This is also the case with the new Freiluftinsel, which is the peak of almost 10 years of cooperation between the two companies.

The Freiluftinsel with the Flammkraft Block D is a lifestyle statement in a class of its own.

-----The drawer has space for a standard 11 kg gas cylinder, allowing it to be stored conveniently and safely.

-----Multiple storage options for barbecue accessories on the Flammkraft D are designed to keep your barbecue tools safe and within easy reach.

- The Flammkraft D is a powerful Made in Germany gas barbecue that reaches temperatures from 75°C to 900°C. With direct and indirect BBQ zones, full stainless steel housing and cast stainless steel grates, it offers versatile options for your BBQ.

- Material stainless steel
- Gas bottle connection

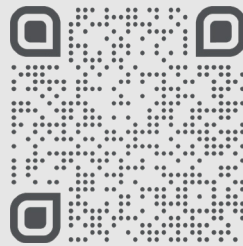

„I am inspired by things that touch my heart. I found the inspiration for Freiluftisland through many unique moments with great people while cooking outdoors.

The Freiluftisland is intended to bring people together and give them a wonderful time with culinary experiences outdoors. To create this place, I combined the functionality of an outdoor kitchen with the design of outdoor furniture.“

Oliver Neugebauer
Founder of Freiluftmanufaktur and designer of the Freiluftisland
